Missile and Space Research Engineering. FAC: 3121

CATCODE: 312476
OPR: AFRL
OCR: N/A

1.1. **Description.** Special purpose protected facilities that contain the instrumentation and control to remotely fire rocket components on test stands, in test cells, and component development stands. The facility houses the engineering/technicians that are directly involved in the development program.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
