UFGS Level of Modification Classification and Associated Documentation

UFC	UFGS	UFGS Section Notation
	Clerical Repairs – nontechnical, administrative in nature, no rewrite of technical aspects; typically associated with corrections to Part 1 Ex. Typos, cross references, mood, formatting, tagging, quarterly RTL update, standard language revisions, UFC 1-300-02 compliance	No notation in banner Not recorded on WBDG UFGS Changes and Revisions page
Change - less than 40 percent of the pages require new information (40% is cumulative including previous changes). **DWG concurrence**	**Change** – less than 40% of the pages are changed; limited number of technical issues, approved CCR technical changes; typically associated with updates in Parts 2 or 3 **TP and Tech Rep concurrence**	No change to Section Date Recorded on UFGS Changes and Revisions page and UFGS individual Section page history on the WBDG Noted under banner section number with latest change number and release date as **Change # - MM/YY** Noted in section <DTE> field after section date as **CHG #: MM/YR**
Revision- 40% or more of the pages have new info or cumulative changes. **DWG concurrence & CP approval prior to work start.** **ESEP approval at publication**	**Revision** – 40% or more of the pages are revised; complete section review resulting in minimal modification to extensive modification to complete rewrite. **DWG concurrence.** **CP approval prior to work start if criteria funds are required.**	Section Date Change, resets the Target Refresh Date on CMS Remove notation of previous change Recorded on UFGS Changes and Revisions page and individual UFGS Section page history on the WBDG Noted under banner section number as **Superseding** followed by previous version or replaced sections and date
	Section Rename/Retitle – conformance with CSI MasterFormat **DWG concurrence**	Section Date Change, resets the Target Refresh Date **Superseding without Revision**
New Document - DWG concurrence & CP approval prior to work start. ESEP approval at publication	**New Document** - DWG concurrence & CP notification prior to work start. DWG approval at publication	**New**

CHANGE

```
*************************************************************************
USACE / NAVFAC / AFCESA / NASA          UFGS-04 23 00 (November 2009)
                                        Change 3 - 08/11
                                        -----------------------------
Preparing Activity:  USACE              Superseding
                                        UFGS-04 23 00 (April 2006)

              UNIFIED FACILITIES GUIDE SPECIFICATIONS

         References are in agreement with UMRL dated January 2011
*************************************************************************

                        SECTION 04 23 00

                     GLASS MASONRY UNITS
                     11/09, CHG 3: 08/11

*************************************************************************
```

Application Examples:

- Publication substitution
- Technical corrections not associated with a complete update
- Completion of Criteria Change Requests (CCR) and "Approved, change now" status of technical CCR
- Inserting additional options and choices (brackets)
- Adding or modifying Specifier Note (other than standard note text)
- Changing Units of Measure
- Adding or removing Tailoring Options (TAI)

<u>REVISION</u>

```

USACE / NAVFAC / AFCESA / NASA          UFGS-04 23 00 (February 2011)
                                        ------------------------------
Preparing Activity:  USACE              Superseding
                                        UFGS-04 23 00 (November 2009)

                    UNIFIED FACILITIES GUIDE SPECIFICATIONS

               References are in agreement with UMRL dated January 2011
****************************************************************************

                              SECTION 04 23 00

                            GLASS MASONRY UNITS
                                  02/11

****************************************************************************
```

Caution: This activity restarts the Refresh Rate clock, establishing a new Target Refresh Date. Coordinate this issue with the Technical Proponent when classifying a section modification as a Revision rather than a Change.

Application Examples:

- Complete review and update performed by DWG or the DWG's agent
- Extensive or significant modification requested by DWG to be designated as a revision
- Section disassembly
- Section unification

SECTION RENAME/RETITLE

```
**************************************************************************
USACE / NAVFAC / AFCESA / NASA          UFGS-04 23 10 (February 2011)
                                        ------------------------------
Preparing Activity:  USACE              Superseding without Revision
                                        UFGS-04 23 00 (November 2009)

                    UNIFIED FACILITIES GUIDE SPECIFICATIONS

            References are in agreement with UMRL dated January 2011
**************************************************************************

                            SECTION 04 23 10

                       GLASS BLOCK UNIT MASONRY
                               02/11

**************************************************************************
```

Caution: Renaming/Retitling a section resets the Target Refresh Date. Therefore, it is more likely that this activity will take place in conjunction with a section Revision ("Superseding" in the banner rather than "Superseding without Revision")

Application Examples:

- CSI MasterFormat compliance

UFGS Changes and Revisions page on the WBDG

This list records Revisions, Section Renames/Retitles and New/Deleted UFGS, and Changes. Each Revision and Change is also found on the individual UFGS Section page listed under "History". Example using May 2019 release list follows:

UFGS Changes And Revisions

Below is a listing of the Revisions and Changes made to UFGS Sections for each quarterly release.

To view a list for a specific UFGS Release, select the UFGS release date from the 'Release' drop-down and click 'Apply'.

To view a list of all the revisions and changes made to a specific UFGS Section, select 'Any' from the "Release" drop down, type the Section number into the Search bar and select the Section to view, then click 'Apply'.

After clicking 'Apply', you can PRINT REPORT, which will include the nature of the change/revision.

To view the complete detailed history of all the revisions and changes made to a UFGS Section, click on the Section title.
