

Digital Multipurpose Training Range (DMPTR). FAC: 1771

CATCODE: 177121

OPR:

OCR:

1.1. **Description.** A range specifically designed to satisfy the training and qualification requirements for the crews and sections of armor, infantry, and aviation units. This range also supports dismounted infantry squad tactical live-fire operations either independently of or simultaneously with supporting vehicles. All targets are fully automated, using event-specific, computer-driven target scenarios and scoring. Targets will receive and transmit digital data from the range operations center. The captured data are then compiled and available to the unit during the AAR.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
