1.1. **Description.** A building suitable for such shop work as fuel system repair, large electronic component and motor repair, chemical equipment repair, and machine shop operations. This category code should be used for stand-alone facilities where the shop is physically separate from the remainder of the maintenance activity or to delineate functional areas within the maintenance facility. Otherwise, it is generally part of the General-Purpose Maintenance Shop.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
