

Armament Research Ballistic Laboratory. FAC: 3151

CATCODE: 315222

OPR: AFRL

OCR: N/A

1.1. **Description.** Facility designed for equipment that determines weight, center of gravity, moment of inertia, and products of inertia of air deliverable munitions. Data obtained from the above determines the degree of similitude between live and inert stores to compute trajectories.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
