

Armament Research Testing. FAC: 3151

CATCODE: 315237

OPR: AFRL

OCR: N/A

1.1. **Description.** Accommodate the research, development, fabrication and testing of non-exploding, penetrating weapons made from heavy metals which are traditionally used against heavily armored targets. Capability is also required to machine heavy metal including depleted uranium into projectiles.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
