

## **Storage, Module Barricaded. FAC: 4221**

CATCODE: 422271

OPR: AF/A4LW

OCR: AFSC/SEW

1.1. **Description.** This facility provides the field storage of large quantities of explosives in minimum land areas where steel-arch, earth-covered igloos are not employed.

1.2. **Requirements Determination.** It is intended for use primarily in austere areas or other locations specifically approved under AFMAN 91-201. See general guidance under CG-42 Ammo Storage Overview paragraph 1.1, 1.2, 1.3, and 1.4.

1.3. **Scope Determination.** A light shed-type metal roof may be utilized over individual cells, where necessary. Do not use unnecessarily heavy structures or flammable materials. Modular storage is only approved for certain munitions items such as High Explosive (HE) bombs, similarly cased High Detonation (HD) 1.1 munitions, 20 mm and 30 mm ammunition in metal shipping containers, and Cluster Bomb/Dispenser Units (CBU) in authorized nonflammable shipping containers (see DoD 6055.9-Std).

1.4. **Dimensions.** See AFMAN 91-201 for further guidance.

1.5. **Design Considerations.** See general guidance under CG-42 Ammo Storage Overview paragraph 1.1, 1.2, 1.3, and 1.4
