1.1. **Description.** The chapel center is a chapel combined with a chapel activities facility to form a single comprehensive complex.

1.2. **Requirements Determination.** Refer to **CATCODEs 730771 and 730772.**

1.3. **Scope Determination.** The *USAF Religious Facility Design Guide* provides guidelines to be used in conjunction with other command and installation requirements for determining spatial allowances for a chapel center. Specific and unique facility spatial requirements may be justified on the basis of local installation needs.

1.4. **Dimensions.** Refer to **CATCODEs 730771 and 730772.**

1.5. **Design Considerations.** Give careful attention to aesthetics and practicality in the process of joining these facilities into a single comprehensive complex.
