NOTES:

1. Shows maximum authorized scope only, not the scope that may be approved. Base the scope used for programming, budgeting, and design on need as documented by a professional, in-depth comprehensive market research and analysis. The scope is also influenced by the Services NAF construction prioritization system, which encourages economy in scope and composite facilities.
2. The scope may also be influenced PVA. Contact AFSVA/Fitness & Sports for current criteria and guidelines.
3. Due to higher utilization of overseas facilities, consider adding up to 10 percent to authorized scope for these facilities (including Alaska and Hawaii).
4. For every 1,000 personnel over 10,000, increase field and court allowance in accordance with a valid PVA.
5. The population used to calculate allowable area is as follows and requires verification using a valid PVA.

a. 100 percent of Assigned Military Personnel – includes Air Force and other U.S. military personnel, full-time Air Force Reserve, and Air National Guard assigned to the installation. Include the number of military personnel from inter-service support agreements with other U.S. and foreign/NATO services.

b. 50 percent of Family Members ages 13 years or older – includes all spouses, and children 13 years or older for those included in the Assigned Military personnel category. If the actual number is not available from the installation, the number may be calculated from the total family member population.

c. 100 percent DoD civilians assigned overseas – this category applies only if the base is overseas or in Alaska or Hawaii. Include DoD, NAF, AAFES, and DoDEA personnel. Do not include personnel as DoD civilians if they are counted as Family Members.

d. 100 percent of PCS members, students, or members TDY – when the installation regularly serves a substantial number (100 or more) of military transients greater than 30 consecutive days, the average daily strength, based on a firm projection of the total yearly load of such transients, may be added to the base population.

e. 100 percent of Host Nation Military or NATO Alliances – For PACAF and USAFE installations, assigned military members of host nations or NATO alliances may be added to the base population.
