30,001 to 40,000	678	7,300

**NOTES:**

1. Military population is defined as active duty military assigned to the facility plus 50 percent of their dependents. Verify the total customer base using a validated PVA study.
2. DoD civilians assigned to overseas facilities are to be counted as active duty strength for facility sizing purposes (including Alaska and Hawaii).
3. Shows maximum authorized scope only, not the scope that may be approved. Base the scope used for programming, budgeting, and design on need as documented by a professional, in-depth comprehensive market research and analysis. The scope is also influenced by the Services NAF construction prioritization system, which encourages economy in scope and composite facilities.
4. The scope can be influenced by PVA studies. Contact MAJCOM Director of Services for current criteria and guidelines.
5. Because of higher utilization of overseas facilities, consider adding 5 to 10 percent to authorized scope for these facilities (including Alaska and Hawaii).
