

Heating from Central Plant. FAC: 8910

CATCODE: 821113

OPR: AFCEC/COS

OCR: AFSC/SEW

1.1. **Description.** This code identifies those facilities that receive heat from a central plant and distribute it to one or more building. The mechanical rooms may be a part of or stand-alone; they include piping, converts, manifolds, pump stations, and safety equipment.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
