

Fire Hydrants. FAC: 8929

CATCODE: 843315

OPR: AFCEC/COS

OCR: AFCEC/CFT

1.1. **Description.** See UFC 3-600-01, *Fire Protection Engineering for Facilities*.

1.2. **Requirements Determination.** Ensure supply for fire protection is available within specified distances of all building, structures, open storage, material, parked motor vehicles and aircraft, fuel handling points, etc., as prescribed in UFC 3-600-01 and UFC 3-230-10A, *Water Supply: Water Distribution*. The following exceptions may be made.

1.2.1. Where location of facilities makes installation of a permanent water supply system unfeasible from an engineering standpoint.

1.2.2. For isolated areas normally requiring such protection but where infrequent use does not warrant permanent installation of a water supply system.

1.2.3. For designated ammunition and similar ordnance material, and underground fuel storage areas, which may be isolated; where explosives are in properly designed magazines or stores in an orderly manner in open dumps in accordance with prescribed ordnance material safety standards.

1.3. **Scope Determination.** Contact OPR for latest requirements and guidance.

1.4. **Dimensions.** Contact OPR for latest requirements and guidance.

1.5. **Design Considerations.** Contact OPR for latest requirements and guidance.
