MEMORANDUM FOR DISTRIBUTION

FROM: NGB/A7
3501 Fetchet Ave
JB Andrews MD 20762-5157

1. Purpose. To define procedures for record keeping, training, preventive maintenance, safety, waivers, procurement, design and special level requirements for aircraft arresting systems (AAS). These procedures are necessary for effective and safe operations.

2. Application. This ANGETL applies to all Aircraft Arresting Systems maintained by Air National Guard personnel.

3. Authority: ANGI 32-1023.

4. Effective Date: Immediately.

5. Supersedes: ANGETL 08-1, dtd 18 April 2008

6. References.

   6.2. AF ETL 06-6, Interim Swaged End Inspection Criteria for Aircraft Arresting System (AAS) Pendants.

   6.3. T.O. 35E8-2-5-1, Aircraft Arresting System Model BAK-12/E31A.

   6.5. T.O. 35E8-2-5-4, Illustrated Parts Breakdown.

   6.6. T.O. 35E8-2-8-1, Hook Cable Support System.

7. Specific Requirements.

7.1. Attachment 1, Managing, Operating, and Maintaining Aircraft Arresting Systems, identifies detailed requirements for civil engineering personnel. The items listed are minimum in number and may be extended by the Base Civil Engineer on a local option basis.

7.2. The Base Civil Engineer will follow all federal, state, and local environmental regulations that pertain to managing, operating, and maintaining aircraft arresting systems.

8. Point of contact for this ANGETL: Mr. Jeff Love, P.E., at (701) 857-4351, DSN 344-4351, email jeffrey.love.2@us.af.mil

PETER A. SARTORI, Col, USAF
Director, Installations and Mission Support

Attachments:
1. Managing, Operating, and Maintaining Aircraft Arresting Systems
2. Aircraft Arresting System Display Board
3. AF IMT 1071
4. Purchase Tape Historical Record
5. Pendant Historical Record
6. Aircraft Arresting System Maintenance Record
7. Lesson Plans
8. Current ANGETL Index
