ENGINEERING AND CONSTRUCTION BULLETIN

No. 2003-12 Issuing Office: CECW-EI Issued: 28 May 2003

Subject: New Barracks Criteria

Applicability: Directive

1. Reference joint ACSIM/CEMP memorandum, 1 May 2003, subject: Revised Barracks Construction Criteria.
2. Based on feedback from the VCSA memo, 11 July 2002, subject: New Barracks Construction Criteria, four changes have been made concerning the standard module configuration. The referenced memorandum establishes the two-bedroom/one bath module as the standard module, requires installation of a stove or cook top, requires laundries in the barracks, and eliminates the separate soldier community building. This criteria is applicable to projects in the FY05 program and is encouraged for all FY04 projects.
3. The referenced memorandum can be viewed and downloaded from the ACSIM Facilities and Housing Directorate website at:
<http://www.hqda.army.mil/acsimweb/fd/construction/milconbar.htm>
4. The point of contact for this action is Jeffery T. Hooghouse, AIA, AVS, CECW-EI, 202-761-5903.

A handwritten signature in black ink, appearing to read "Donald L. Basham".

DONALD L. BASHAM, P.E.
