

No. 2012-25 Issuing Office: CECW-CE Issued: 21 Sep 2012 Expires: 21 Sep 2014

Subject: Nominations for 2013 "New Faces of Engineering" Recognition Program – Suspense: 19 Oct 2012

Applicability: Information

1. The purpose of this ECB is to solicit your nomination of outstanding young engineers, civilian or military, working in the United States Army Corps of Engineers (USACE) for recognition in cooperation with the National Engineers Week Foundation's *New Faces of Engineering* program during the 2013 National Engineers Week. This program strives to promote accomplishments of young engineers by highlighting their engineering contributions and the resulting impacts on society.

2. Each USACE Major Subordinate Command (MSC), Engineer Research and Development Center (ERDC) and Huntsville Engineer and Support Center may provide up to three nominees. A HQUSACE panel will evaluate the submitted nominees and select five engineers who will be recognized as USACE's 2013 *New Faces of Engineering*, and will then become the USACE nominees for the National Engineers Week Foundation's national program, with the top dozen nominated engineers from all participating agencies being recognized in a full-page advertisement in *USA Today* during Engineers Week in February 2013. All five USACE selectees will be recognized by a variety of means.

3. Your nominees do not have to be registered professional engineers, but must have a degree in engineering from an ABET accredited U.S. college or university, or equivalent international educational institution, and be 30 years of age or younger as of 31 December 2012.

4. All nominations must be complete and typed on the official NSPE electronic nomination form and submitted electronically to the POC below by COB 19 October 2012. The nomination form, including evaluation criteria that apply to this program, may be downloaded from the NSPE web site: <u>http://www.eweek.org/NewsStory.aspx?ContentID=281</u>

5. The USACE point of contact is Paul Dicker, CECW-CE, (202) 761-0995; email: paul.f.dicker@usace.army.mil.
