ENGINEERING AND CONSTRUCTION BULLETIN

No. 2013-13

Issuing Office: CECW-CE

Issued: 23 Apr 2013

Expires: 23 April 2015

Subject: United States Army Corps of Engineers Dam Safety Award of Excellence for 2012

Applicability: Information

1. Reference: ECB 2013-2, dated 14 January 2013, Subject: United States Army Corps of Engineers Dam Safety Award of Excellence

1. Purpose: This Engineering and Construction Bulletin announces the winners of the US Army Corps of Engineers Dam Safety Award of Excellence for 2012.

2. Individual Award Winner: Congratulations to Mr. David C. Serafini, Sacramento District, the recipient of the individual USACE Dam Safety Award of Excellence for 2012. He was selected based on his outstanding contributions leading the district dam safety team in completing the Isabella Lake Dam Safety Modification Report using the new dam safety regulation, and his overall contributions to the field of Dam Safety within the District, the South Pacific Division and the USACE. He is also recognized for contributions of his time and talent to various national organizations that advance the field of dam safety. The Individual Dam Safety Award of Excellence is planned for presentation to Mr. Serafini during the 2013 Summer Senior Leaders Conference.

3. Team Award Winner: Congratulations to the Clearwater Lake Dam Major Rehabilitation Team, Little Rock District, winner of the Team USACE Dam Safety Award of Excellence for 2012. The Team is recognized for their work to complete the Rehabilitation of the Clearwater Lake Dam, the first DSAC 1 project completed since the inauguration of the USACE Risk Informed Dam Safety Program. Its members are further recognized for their participation in advancing dam safety within the District, the Southwestern Division, and the USACE Dam Safety Program. They have also demonstrated their professionalism and desire to extend the state of the practice of dam safety by contributing their time and talents to the several national organizations that advance the safety of dams throughout the country and the world. The USACE Dam Safety Award of Excellence is planned for presentation during the 2013 Summer Senior Leaders Conference.
