of Engineers®**

ENGINEERING AND CONSTRUCTION BULLETIN

No. 2013-24

Issuing Office: CECW-CE

Issued: 20 Aug 2013

Expires: 20 Aug 2015

Subject: Identification of Real Property Unique Identification (RPUID) Numbers

Applicability: Directive

1. References.

- a. DoD Instruction 4170.11 Installation Energy Management, 11 DEC 09.
- b. Executive Order 13423, Strengthening Federal Environmental, Energy, and Transportation Management, 27 Jan 07.
- c. Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance, 5 Oct 09.
- d. Unified Facilities Criteria (UFC) 1-200-02, High Performance Sustainable Building Requirements, 1 MAR 13.
- e. High Performance Sustainable Building Guiding Principles, 1 DEC 08.

2. Executive Order 13423 requires that all new construction and major renovation comply with the High Performance Sustainable Building Guiding Principles (GP). The Department of Defense requires through DoD Instruction 4171.11 that the services (Army, Navy and Air Force) report their buildings complying with the GP through the Annual Energy Management Report. This information is then provided to the Department of Energy to show compliance with Executive Order 13423.

3. Leadership in Energy and Environmental Design (LEED) certification can indicate compliance with many of the GPs. Therefore, it is important to identify when buildings have achieved LEED certification to assist the services in complying with GP requirements and EO 13423. The tracking of GP compliance is accomplished through real property inventory and data

ECB No. 2013-24

Subject: Engineering and Construction Bulletin (ECB) Management and Format Requirements

base with each building is identified by a RPUID. Therefore it is also important to link the RPIUD to LEED certified buildings.

4. Attached is a list of LEED certified buildings where USACE served as the design/construction agent sorted by USACE district. This contains important information on the LEED certification, but does not identify the RPUID for each building. Request each district contact the Real Property Office located within the Department of Public Works at the installation where the LEED certified projects are located and assist the Real Property Officer in identifying the RPUID for each certified building. Provide the Real Property Officer with the LEED certification for each building so they can update the real property inventory. (Information on how to update the real property inventory can be found in UFC 1-200-02, Section 5-3 Compliance Reporting). Provide the RPUIDs for each building and project (some projects may have more than one building) to Paula Loomis, paula.j.loomis@usace.army.mil and Richard Schneider, Richard.l.schneider@usace.army.mil by 16 Sep 2013.

5. As a reminder, for future projects follow the LEED Implementation Guide Appendix H (atch), which was updated in 2013 to require that the RPUID be included in the second line of the LEED project title. This will ensure that the RPUID is identified in the LEED documentation for future projects. HQUSACE is working with the U.S. Green Building Council to update historic LEED records with the data gathered from this exercise. These two efforts will include the RPUID in all LEED records and eliminate exercise such as this one in the future.

6. The point of contact for ECB is Paula Loomis, CECW, 202-761-7526.

APPENDIX H LEED Registration
LEED Registration of Army Projects
22 April 2011 (Updated 4 Mar 2013)

Typical Registration Procedure

1. Login, complete the online registration form (see guidance below) at the GBCI LEED Online website <http://www.gbci.org/DisplayPage.aspx?CMSPageID=174> and submit it online.
2. Pay the registration fee via credit card (USACE staff: credit card or government purchase request PR&C is funded by project design or S&A funds).
3. GBCI will follow up with a final invoice, the LEED-online passwords and template information.
4. The individual who registers the project online is, by default, the Project Administrator.

Completing the Registration Form

BEFORE YOU BEGIN:

Create a personal account with USGBC if you do not have one.

You will need the following information to register a project:

Project name as it appears in P2 (obtain from USACE Project Manager)

Building number/physical address of project

Zip code for Installation/project location

Anticipated construction start and end dates

Total building gross area

Total construction cost for building only (see Project Details Section instructions below)

ACCOUNT/LOGIN INFORMATION:

1. The person registering the project **must have an account with USGBC** (login and password) to complete the form. Go to <http://www.gbci.org/>, click on "register a project" at the drop-down menu for project certification (at the top of the page) and select "register now for LEED 2009" to start the project registration process. If you have an account, login with your email address and password and select "register new project" to proceed. If you do not have an account, you may select "register a new account" and follow the instructions. It is recommended that you create an account separately on the USGBC website before you start the form. **IMPORTANT: USACE team members are members of USGBC and USACE Army LEED Implementation Guide 21 August 2011 H-2**

are eligible for Member prices. USACE team members registering projects should be sure to include the USACE Corporate Access ID in their personal account profile (if you do not have it contact richard.l.schneider@usace.army.mil or judith.f.milton@usace.army.mil for the number).

2. The Account/Login Information section is filled out by the person registering the project. It may be a Contractor or a USACE staff member.

ELIGIBILITY SECTION:

Follow directions (review and accept the terms and conditions if applicable) DO NOT PROCEED and contact PM for direction if project does not meet MPRs.

Review your profile information and make corrections if needed.

RATING SYSTEM SELECTION SECTION:

For a single building and site (non-campus) project:

Select single project registration and I know which rating system.

Select the rating system - currently only LEED-NC and LEED for Homes and Medical are used for Army projects.

LEED Minimum Program Requirements: verify that project meets MPRs and, if so, select YES. If not, DO NOT PROCEED and contact PM for direction.

For a multiple building campus project:

See Appendix I USACE LEED Campus Project Requirements for special registration requirements for campus projects.

RATING SYSTEM RESULTS SECTION:

Confirm selected rating system.

PROJECT INFORMATION SECTION:

Project Name: ALWAYS begin Project Name with "ARMY" (or "AF", "DLA" as appropriate) followed by the project PN number, project name and building. Contact the USACE Project Manager for this information. Example: "ARMY PN54321 Barracks 2".

Project Address 1 and 2: This is the physical location of the project. For the first line provide facility number, street address, block number or whatever is known to best describe the location of the project on the Installation. For the second line provide the base identification code, category code and real property unique identification code (RPUID). These can be gotten from the real estate officer at the installation. Example: "xxxx, xxxxxx, xxxxxxxxxxxxxxxxxxxxxxx".

Project City: Installation Name Example: "Fort Riley" or "Tyndall Air Force Base"

State, Country, Zip Code: Self-explanatory

Anticipated Construction Start and End Dates: Self-explanatory – give your best guess if unknown. Note that required data entry format is: 1 or 2 digit month/1 or 2 digit date/4 digit year (example 3/23/2010)

Gross Square Footage: Provide total area of the building. Exclude the area of any buildings that are exempt from the LEED achievement requirement (for example, exclude an unconditioned storage shed to be constructed with a barracks complex).

Is Project Confidential: Indicate NO except if project has security sensitivity (elements that are FOUO or higher security) indicate YES.

Notification of Local Chapter: Indicate NO unless Government/USACE Project Manager requests you to indicate YES.

Anticipated Project Type: Select the most appropriate option from the drop-down menu.

Anticipated Certification Level: Select the applicable option from the drop-down menu (Silver is the usual level).

PROJECT OWNER INFORMATION SECTION:

Project Owner POC First Name, Last Name, email, phone, and address: The Project Owner representative during design and construction up until acceptance of final LEED certification is the USACE Project Manager. Immediately prior to occupancy change the Project Owner POC to the Department of Public Works Director or Base Civil Engineer.

Owner Organization: U.S. Army Corps of Engineers. **This field MUST be completed this way because it will be used as a search field by higher HQ to find all USACE registered projects. You may supplement it with district name at the end but DO NOT revise or use an acronym.**

May we publish Owner information: Indicate NO

Owner Type: Pick Federal Government from drop-down menu.

Project Owner Assertion: Check the box

PAYMENT INFORMATION:

Self-explanatory
