Public Works Technical Bulletin
No. 25-30-1

25 January 1999

PUBLIC WORKS
Public Works Engineering Guidance and
Evaluation Program

U.S. ARMY INSTALLATION SUPPORT CENTER
PUBLIC WORKS PUBLICATIONS INVENTORY

1. Purpose. The purpose of this Public Works Technical Bulletin (PWTB) is to provide an inventory of technical and guidance documents for which the Installation Support Center has functional proponentcy.

2. Applicability. This PWTB applies to all Army public works engineering activities.

3. Discussion.

a. A Public Works Publications Inventory, will be republished periodically to reflect new or revised documents. New/revised entries are prefixed by an asterisk (*). The complete inventory is contained in appendix A. The purpose of the inventory is to provide a reference document for published public works technical guidance documents which may be less widely distributed and which may not be inventoried elsewhere. The inventory is listed by functional proponent. Information on upcoming revisions and new guidance documents will be published in the DPW Digest.

b. Public Works Technical Bulletins are distributed to OCE-P, ACSIM, HQUSACE, CPW, MACOM Engineers, Installation DPWs, and USACE divisions, districts and laboratories. Addressees desiring to further define the office to receive PWTBs, should contact CECPW-P, Ms. L. Holbert, DSN 328-7931 or commercial 703-428-7931.

c. CECPW does not maintain a stock of DA publications. All requests for DA publications should be submitted through your local Publications Control Officer. All other publications listed in this inventory may be obtained through the proponent office listed in appendix A.

PWTB 25-30-1
25 January 1999

4. Point of contact. Questions and/or comments regarding this PWTB should be directed to the proponent office within the U.S. Army Installation Support Center.

KRISTINE L. ALLAMAN, P.E.
Director
Installation Support Center
