

Pass & Seymour

GFCIs Specification Grade 15 & 20A, 125VAC

1595, 2095, 1595-S, 2095-S, 1595-NTL, 2095-NTL, 1595-TR, 2095-TR, 1595-L, 2095-L

Durability and protection that exceeds the 2006 UL standard.

Patented SafeLock™ protection denies power if the GFCI is miswired or if the GFCI is damaged and protection is lost. This prevents the unsafe condition of power without protection. P&S has the broadest range of ground-fault protection, with the first LED Nightlight/GFCI Combination, and the first Tamper-Resistant GFCI, in addition to Auto-Ground and Illuminated versions.

For Hospital Grade GFCIs, refer to SF1102R4.

Features & Benefits

SafeLock™ Protection denies power if the GFCI is miswired or if the GFCI is damaged and protection is lost. This prevents the unsafe condition of power without protection.

Nickel post-plated mounting strap for superior corrosion resistance.

Trip indicator light (red lamp) makes it easy to identify tripped condition.

Side or internal screw-pressure-plate back wire termination with #14 – #10 AWG stranded or solid, copper or copper-clad conductors.

Captive screws make for easier installation.

Meets 2006 UL requirements.

Back wire clamp allows for fast installation of ground wires.

Two back wire holes per termination add wiring flexibility, eliminate pigtail and save box space.

Prevents line-load reversal miswire: No power to the face or downstream receptacles if wired incorrectly.

High-impact-resistant, thermoplastic construction for superior strength and durability.

1/4" thinner than competitors' GFCIs; leaves more room for wires in the box.

The most durable GFCI available. Exceeds UL943 voltage surge requirements; survives 100x the required UL 3kA/6kV voltage surge test cycles.

2095-LA

GFCIs Specification Grade 15 & 20A, 125VAC

Technical Specifications

3rd Party Compliance

cULus Listed File Number E42190, Standard UL498 Attachment Plugs and Receptacles, UL943 GFCIs. Federal Specification WC596. Standard CSA C22.2 No. 42 General Use Receptacles, CSA C22.2 No. 144 GFCIs. Conforms to NEMA WD-1 and WD-6.

Performance

Electrical	
Dielectric Voltage	Withstands 1500V minimum
Trip Level	4 to 6 mA
Trip Time	.025 Second Nominal
Frequency	60 Hz
Maximum Working Voltage	125VAC
Voltage Range	102-132VAC
Mechanical	
Terminal Identification	Terminals identified in accordance with UL498 (Hot, White, Green)
Terminal Accommodation	#14 AWG – #10 AWG solid or stranded copper conductor only
Product Identification	Ratings are a permanent part of device
Environmental	
Operating Temperature	-35°C to +66°C
Maximum Humidity	95%
Flammability	UL94 V2

Materials

Face	Nylon	Hex Head Grounding Screw	Steel (Green)
Body	Nylon	Flat Head Mounting Screws	Zinc-Plated Steel
Contacts	.03" Brass (.8)	Test/Reset Buttons	Nylon
Mounting Straps	.05" Nickel-Plated Steel (1.3)	Auto-Ground Clip	* Brass Alloy C260
Terminal Screws	Nickel-Plated Steel #8 - 32	Nightlight Lens	** Lexan®
		Tamper-Resistant Shutter	*** Thermoplastic

* For 1595-S and 2095-S Auto-Ground versions only.

** For 1595-NTL and 2095-NTL Nightlight versions only.

*** For 1595-TR and 2095-TR Tamper-Resistant versions only.

Warranty

1 Year

**Dimensions for
15 & 20 Amp**
