

Filters and Filter Sections:

Safety instructions to observe when working on this equipment is as follows:

Caution: Do not use metal ladders.

Caution: When using a stepladder, never stand on the top step of the ladder.

Caution: When opening duct access door at the filters remember that the duct may be under a positive pressure. Either turn off the respective AHU or carefully open the door keeping in mind to maintain pressure on the face of the door to prevent it from flying open upon release of the door latch.
