FY15 Real Property Categorization System

This SUC was determined using a combination of two other FACs; FAC 1162, Missile Launch Pad, and FAC 1444, Miscellaneous Operations Support Building. This is based on information received from Arnold AFB missile and civil engineering personnel. All other components of the test facility are considered equipment and not real property. The pad area is assumed to be 2,500 SY. The support facility is assumed to be 600 SF.
