

UNIFIED FACILITIES GUIDE SPECIFICATIONS (UFGS)

Updated April 18, 2007

Interim Update:

Revised May 7, 2007 - Two documents replaced: UFGS Master and the UMRL. The Unified Master Reference List (UMRL) and the master reference list within the UFGS Master have been updated to include publications referenced in the UFGS sections prepared by NASA. No UFGS sections have been revised by this update.

Additional files added - UFGS in PDF, which are all the sections combined into one document and the UFGS Master Database Tracking Chart, which identifies which UFGS sections are currently being edited and at what stage of the review cycle each section is.
