SECTION 11 06 40.13

FOODSERVICE EQUIPMENT SCHEDULE 01/08

NOTE: This guide specification covers the requirements for foodservice equipment schedules.

Comments and suggestions on this guide specification are welcome and should be directed to the technical proponent of the specification. A listing of technical proponents, including their organization designation and telephone number, is on the Internet.

Recommended changes to a UFGS should be submitted as a Criteria Change Request (CCR).

Use of electronic communication is encouraged.

This guide specification includes tailoring options for NAVAFAC, and USACE. Selection or deselection of a tailoring option will include or exclude that option in the section, but editing the resulting section to fit the project is still required.

Brackets are used in the text to indicate designer choices or locations where text must be supplied by the designer.

NOTE: This guide specification is to be used in conjunction with the following sections; subject to project scope requirements:

Section 11 05 40 - COMMON WORK RESULTS FOR FOOD SERVICE EQUIPMENT

Section 11 41 11 - REFRIGERATED AND FROZEN FOOD STORAGE EQUIPMENT

Section 11 42 00 - FOOD PREPARATION EQUIPMENT

Section 11 44 00 - FOOD COOKING EQUIPMENT

Section 11 46 00 - FOOD DISPENSING EQUIPMENT

Section 11 47 00 - ICE MACHINES

Section 11 48 00 - CLEANING AND DISPOSAL EQUIPMENT

Section 12 35 20 - FOODSERVICE CASEWORK, COUNTERS,
AND RAILS.

PART 1 GENERAL

1.1 REFERENCES

NOTE: This paragraph is used to list the publications cited in the text of the guide specification. The publications are referred to in the text by basic designation only and listed in this paragraph by organization, designation, date, and title.

Use the Reference Wizard's Check Reference feature when you add a RID outside of the Section's Reference Article to automatically place the reference in the Reference Article. Also use the Reference Wizard's Check Reference feature to update the issue dates.

References not used in the text will automatically be deleted from this section of the project specification when you choose to reconcile references in the publish print process.

The publications listed below form a part of this specification to the extent referenced. The publications are referred to within the text by the basic designation only.

NSF INTERNATIONAL (NSF)

NSF 169 (2007) Standard Specification for Special Purpose Food Equipment and Devices

NSF 2 (2007) Food Equipment

NSF Product Listing (2002) NSF Product Listings of Food Equipment and Related Products, Components, and Materials

U.S. DEPARTMENT OF DEFENSE (DOD)

DOD 4000.25-1-M (2006; Notice 1) Requisitioning and Issue Procedures

U.S. ENVIRONMENTAL PROTECTION AGENCY (EPA)

Energy Star (1992; R 2006) Energy Star Energy Efficiency Labeling System

U.S. GREEN BUILDING COUNCIL (USGBC)

LEED (2002; R 2005) Leadership in Energy and Environmental Design(tm) Green Building Rating System for New Construction (LEED-NC)

LEED Reference Guide (2005) LEED-NC Reference Guide for New Construction

1.2 DEFINITIONS

Terms used in Paragraph "Food Service Equipment Schedule", are defined as follows:

- a. Sheet Pan: Standard 450 by 650 by 25 mm 18 by 26 by 1 inch deep pan, unless otherwise noted.
- b. Pan: Standard 300 by 500 by 150 mm 12 by 20 by 6 inch deep pan.
- c. Serving Tray: Cafeteria tray 350 by 450 mm 14 by 18 inch, unless otherwise noted.
- d. 115-60-1: 115-volt, 60-hertz, 1-phase electric service and connection.
- e. 208-60-1: 208-volt, 60-hertz, 1-phase electric service and connection.
- f. 208-60-3: 208-volt, 60-hertz, 3-phase electric service and connection.

1.2.1 Abbreviations

Abbreviations used in Paragraph "Food Service Equipment Schedule", are defined as follows:

AMPS:	Amperes
J:	Joules BTU: British Thermal Units
CRS:	Corrosion Resistant Steel
CW:	Cold water
DIA:	Diameter
DR:	Drain
FED:	Federal Specification
G:	Gas
L:	Liters GAL: Gallon
W:	Watts HP: Horsepower
HW:	Hot water
mm:	Millimeters IN: Inches
JSN:	Joint Schedule Numbers
KW:	Kilowatts
L:	Left
kg:	Kilograms LB: Pounds
LOG CLASS:	Logistical Classification
MIL:	Military Specification
MIN:	Minimum
NSF:	National Sanitation Foundation
R:	Right

SS: Stainless Steel
 STM: Steam
 x: By, in usage describing dimensions of a rectangular solid

1.2.2 Dimensions

Dimensions used in Paragraph "Food Service Equipment Schedule", are in millimeters inches, unless otherwise noted. Dimensions are listed in order of length, width, and height, unless otherwise noted. Terms are defined as follows:

- a. Length: Distance across front of equipment
- b. Width: Distance from front edge to back edge
- c. Height: Distance from bottom edge to top of equipment
- d. Depth: Distance from rim to bottom at drain, as in a sink.

1.2.3 Measurements

Metric measurements in this section are based on mathematical conversion of English unit measurement, and not on metric measurement commonly agreed to by the manufacturers or other parties. The English and metric units for the measurements shown are as follows:

<u>Products</u>	<u>Metric Units</u>	<u>English Units</u>
Stainless steel legs	100 mm	4 inches
Stainless Steel	2.5 mm	12 gage
	1.8 mm	14 gage
	1.5 mm	16 gage
	1.2 mm	18 gage
Channels	25 mm x 25 mm	one x one inch
	2.5 mm	12 gage
Angles	38 mm x 38 mm x 3 mm	1 1/2 x 1 1/2 x 1/8 inch

1.2.4 Logistical Classification

NOTE: The Logistical Classifications listed in the schedule assume Class A (funded with building project funds and provided by the Contractor) for all building equipment and Class C (funded with other than building project funds and provided by the Government) for all collateral equipment. (The latter are listed because they are connected to building services or otherwise need the Contractor's attention). If equipment is to be procured with any other funding or procurement method, revise the "Log Class" symbol as appropriate. Government-furnished equipment must also be addressed in Section 01 11 00 SUMMARY OF WORK.

Method of Procurement listed in Paragraph "Food Service Equipment Schedule", is defined as follows:

- a. Class A: Contractor-furnished and Contractor-installed.
- [b. Class B: Government-furnished and Contractor-installed.]
- c. Class C: Government-furnished and Government-installed.
- [d. Class D: Government-furnished as leased equipment and Government-installed.]
- [e. Class E1: Government-furnished and Government-installed.]
- [f. Class E2: Government-furnished and Contractor-installed.]

Equipment designated Logistical Class ["C"] ["D"] ["E1"] will be Government-provided. Equipment which is Government-provided will be furnished and installed by the Government in space made available by the Contractor and with rough-in made by the Contractor in accord with the information made available or referenced herein or indicated.

1.3 GENERAL REQUIREMENTS

NOTE: Indicate the configuration and layout for all food service equipment and accessory items on the floor plans, with interior elevations and equipment identified by number. Show "Food Service Equipment Schedule" on the drawings using the same identification numbers[as indicated on the current US Army Quartermaster Center and School equipment schedule]. Ensure that all Contractor built-to-order items, per Food Service Equipment Schedule", are shown and coordinated with the specifications.

Designer must coordinate with other sections for final connection of equipment.

NOTE: Details of particular equipment and installations are provided on Naval Food Service Division drawings. Use these NAVFSD drawings as a basis for the project details. Contact NAVFSD at commercial telephone (717) 790-7580 or DSN 430-7580.

Submit detailed Food Service Equipment Schedule conforming to Electrically powered equipment specified within this section must conform to EPA Energy Star requirements and labeling. Food Service Equipment must conform to NSF 2 and NSF Product Listing standards. Special purpose equipment must conform to NSF 169.[Provide documentation conforming to LEED and LEED Reference Guide as required in Section 01 33 29 LEED(TM) DOCUMENTATION.]

1.3.1 Design Requirements

NOTE: On the drawings, show:

1. A 1:50 1/4 inch scale floor plan with layout of

all food service equipment and Naval Equipment Symbols.

2. Food Service Equipment Schedule laid out in accord with NAVFSSOcurrent US Army Quartermaster Center and School equipment schedule specified design requirements, including Energy Star qualified model list.

3. Floor, wall, and ceiling penetrations.

4. Raised bases, retainer curbs, or depressions.

5. Recessed, grated floor drains required for equipment.

6. Insulated floors, including under-floor perforated drains and vent pipes.

7. Disconnect switches.

8. Electrical chases and raceways and plumbing chases.

9. Remote compressors and refrigeration systems.

10. Utility connections to building water, sanitary, electrical, and other utility systems. Convenience outlets at point of use for plug-in equipment.

11. All Contractor built-to-order items, per Food Service Equipment Schedule, shown and coordinated with the specifications.

Submit detail drawings for all food service equipment and accessory items. Drawings must be 1:50 1/4 inch scale minimum.

Submit a complete list of equipment, material data, and drawings as specified.

1.4 SUBMITTALS

NOTE: Review Submittal Description (SD) definitions in Section 01 33 00 SUBMITTAL PROCEDURES and edit the following list to reflect only the submittals required for the project. Submittals should be kept to the minimum required for adequate quality control.

A "G" following a submittal item indicates that the submittal requires Government approval. Some submittals are already marked with a "G". Only delete an existing "G" if the submittal item is not complex and can be reviewed through the Contractor's Quality Control system. Only add a "G" if the submittal is sufficiently important or complex in context of the project.

For submittals requiring Government approval on Army projects, a code of up to three characters within the submittal tags may be used following the "G" designation to indicate the approving authority. Codes for Army projects using the Resident Management System (RMS) are: "AE" for Architect-Engineer; "DO" for District Office (Engineering Division or other organization in the District Office); "AO" for Area Office; "RO" for Resident Office; and "PO" for Project Office. Codes following the "G" typically are not used for Navy, Air Force, and NASA projects.

Choose the first bracketed item for Navy, Air Force and NASA projects, or choose the second bracketed item for Army projects.

Government approval is required for submittals with a "G" designation; submittals not having a "G" designation are [for Contractor Quality Control approval.][for information only. When used, a designation following the "G" designation identifies the office that will review the submittal for the Government.] Submit the following in accordance with Section 01 33 00 SUBMITTAL PROCEDURES:

SD-02 Shop Drawings

Food Service Equipment [Schedule](#)[; G][; G, [\[_____\]](#)]

Submit in the same format as the equipment schedule on the drawings. Include Energy Star qualified model label list.

PART 2 PRODUCTS

2.1 LIST OF EQUIPMENT

NOTE: Edit the master "Food Service Equipment Schedule" carefully; retain items of equipment used for the project. The Equipment List is intended to be edited and included in the project Specification. List the information contained herein on the Equipment List on the Contract Drawings.

2.1.1 Format

Provide the equipment listed except as otherwise specified as a result of the Logistical Class listed. Entries in paragraphs, "Food Service Equipment Schedule" include the following information, when applicable:

NOTE: The Navy equipment symbols must be used on the drawings in a table keyed to plan location by a secondary designation. The Navy equipment symbols are intended to be used as shown, without renumbering for deleted items or because of added items. Contact NAVFSSO for equipment table format.

- a. [Naval](#) Equipment Symbol.
- b. Logistical Classification.
- c. Generic description of equipment.
- d. Referenced applicable document or statement that equipment is Custom Fabricated or of Commercial design.
- e. Classification: Type, Style, Class, Size, Group, Model and Grade for equipment defined by referenced applicable document.
- f. Description for Custom Fabricated and Commercial design, and required features or accessories.
- g. Dimension: listed in order of length, width and height.
- h. Utility Requirements: Electrical: volts, hertz, phase; gas; plumbing: water, drain; listed in order.

2.1.2 Food Service Equipment [Schedule](#)

NOTE: Submit the proposed equipment list to the Naval Food Service System Office, who will furnish Naval Equipment Symbols and Descriptions. Contact the NAVFSSO at commercial telephone (202) 433-0716 or DSN 288-0716. Descriptions will include Logistical Classification.

NOTE: The Logistical Classification of the equipment listed at this Technical Note will depend on the Classification selected for associated work listed elsewhere. Coordination is required.

NOTE: When equipment is added to this schedule, add the applicable Standard to paragraph entitled "References."

PART 3 EXECUTION

3.1 Labeling and Identification

Clearly label and identify all components with respective number as enumerated in approved Food Service Equipment Schedule. Provide equipment with tags numbered and stamped for their use as indicated on the Food Service Equipment Schedule. Provide brass or non-ferrous plates and tags. Minimum letter and numeral sizes are 3.18 mm 1/8 inch high.

-- End of Section --
