## UNIFIED FACILITIES GUIDE SPECIFICATIONS

References are in agreement with UMRL dated April 2023

\*\*\*\*\*

### SECTION 09 06 00

#### SCHEDULES FOR FINISHES

08/22

\*\*\*\*\*

NOTE: This guide specification covers the requirements for color of exterior and interior materials and products.

Per 2017 NDAA-Section 888, the use of brand names or brand-name or equivalent descriptions, or proprietary specifications or standards is prohibited in Department of Defense solicitations unless a justification for such specification is provided and approved in accordance with section 2304(f) of title 10, United States Code.

Use this guide specification when providing a Justification and Approval (J&A), OR when using color reference systems such as Pantone, RAL, AMS-STD-595 (Federal Standard 595C) and NCS to define finish colors.

Adhere to [UFC 1-300-02](#) Unified Facilities Guide Specifications (UFGS) Format Standard when editing this guide specification or preparing new project specification sections. Edit this guide specification for project specific requirements by adding, deleting, or revising text. For bracketed items, choose applicable item(s) or insert appropriate information.

Remove information and requirements not required in respective project, whether or not brackets are present.

Comments, suggestions and recommended changes for this guide specification are welcome and should be submitted as a [Criteria Change Request \(CCR\)](#).

\*\*\*\*\*

## PART 1 GENERAL

### 1.1 SUMMARY

This section covers only the color of exterior and interior materials and products that are exposed to view in the finished construction. The word "color", as used herein, includes surface color and pattern. Requirements for quality, product specifications, and method of installation are covered in other appropriate sections of the specifications. Specific locations where the various materials are required are shown on the drawings if not identified in this specification. Items not designated for color in this section may be specified in other sections. When color is not designated for items, propose a color for approval.

### 1.2 SUBMITTALS

\*\*\*\*\*  
NOTE: Fill in the empty brackets following the "G"  
classification with a designation identifying the  
DOR (Designer of Record).  
\*\*\*\*\*

SD-04 Samples

Contractor Color Boards; G[, [\_\_\_\_]]

### 1.3 COLOR REFERENCE SYSTEMS

Colors for project finishes are identified in the Color Schedule and based on the [Pantone [Home & Interiors Color Guide][ ][RAL [Design Color Guide] [ ][AMS-STD-595 (Federal Standard 595C)][NCS [1950 Index][ ][ ] color reference system.

## PART 2 PRODUCTS

### 2.1 CONTRACTOR COLOR BOARDS

\*\*\*\*\*  
NOTE: If a Justification and Approval (J&A) is not  
obtained for a project, the following requirement  
can be included for the contractor to submit  
construction color boards.  
\*\*\*\*\*

Contractor to submit actual color boards to include all finish color samples specified on the project, prior to the submittal and approval of individual finish submittals. The DOR must review and approve the color boards to verify overall building finish coordination and aesthetic. Color boards must be prepared by professional interior designers or architects with significant interior design experience. Qualification of designers is based on education, experience and examination. Interior designers or architects must have completed a program accredited by the Council for Interior Design Accreditation (CIDA) or equal accreditation program of academic training in interior design. In addition, the interior designer or architect must also have attained National Council for Interior Design Qualification (NCIDQ) certification or state licensure, certification or registration and must not be affiliated with a furniture dealership, vendor or manufacturer.

## 2.2 COLOR SCHEDULE

\*\*\*\*\*

NOTE: All interior and exterior finish colors are to be included in this specification or in the Finish Color Legend in the drawings. Add finishes not included in the specification per the project requirements, and delete finishes that are not required for the project. Include applicable mechanical, fire protection, structural, architectural, site and electrical items that have an impact on the aesthetics of a facility. Coordinate the color for these items with the appropriate design discipline.

When this specification is utilized, include reference in the applicable guide specifications "color will be as specified in Section 09 06 00 SCHEDULES FOR FINISHES." If this text is not currently included in the applicable guide specification, the designer should add it.

The Color Schedule may contain a reference to another specification section where the color is designated (example: Signage: See Section 10 14 00.10 EXTERIOR SIGNAGE for color).

When multiple colors of the same material are specified, add finish color codes and notes within the color listing to identify location of different material colors. For example, CPT-1 (Offices), CPT-2 (Conference Rooms) etc.

Coordinate finish terminology and finish color codes between the specifications and drawings, including drawing details such as floor and wall patterns, finish plans, and the Room Finish Schedule.

Do not duplicate information that is specified in the individual specifications or in the drawings.

### EDITING TIPS:

1. An easy way to capture finish material text (example:

```
<SPT =2.2.1.1><TTL>2.2.1.1    Brick</TTL>
```

```
<ITM>[_____]</ITM>
```

</SPT =2.2.1.1>) is to place your cursor in the title, double click and continue to double click until it is highlighted from beginning tag (<SPT =2.2.1.1>) to end tag (</SPT =2.2.1.1>). Once this has been done the highlighted portion can be deleted if not applicable or copied for further editing if text for a new finish material is required.

2. Add information inside ITEM tags (<ITM></ITM>) to prevent text wrapping problems (example:

#### 2.3.1.2 Carpet Tile (CPT)

<ITM>CPT-1 - XYZ Co., Pattern ABC, Color  
#12354 Blue</ITM>  
<ITM>CPT-2 - LPQ Co., Pattern JKL, Color  
#78911</ITM>).

\*\*\*\*\*

The color information provided in the following paragraphs lists the colors, patterns and textures for exterior and interior finishes, including both factory applied and field applied colors. In the case of difference between the drawings and specifications, colors identified in this specification govern.

### 2.3 EXTERIOR FINISHES

\*\*\*\*\*

NOTE: Exterior color information (exterior walls, exterior trim and exterior roof) can be included in this specification or on the exterior elevation drawings. If provided on the drawings include a color legend. When this information is added to the drawings delete the applicable paragraphs in this specification (paragraphs EXTERIOR WALLS, EXTERIOR TRIM and EXTERIOR ROOF).

\*\*\*\*\*

[Reference drawings for color information.]
