UNIFIED FACILITIES GUIDE SPECIFICATIONS

SECTION 01 42 00

SOURCES FOR REFERENCE PUBLICATIONS
05/24

NOTE: This guide specification provides a listing of organizations whose publications are referenced in other sections of the specifications.

Adhere to UFC 1-300-02 Unified Facilities Guide Specifications (UFGS) Format Standard when editing this guide specification or preparing new project specification sections. Edit this guide specification for project specific requirements by adding, deleting, or revising text. For bracketed items, choose applicable item(s) or insert appropriate information.

Remove information and requirements not required in respective project, whether or not brackets are present.

Comments, suggestions and recommended changes for this guide specification are welcome and should be submitted as a Criteria Change Request (CCR).

In accordance with FAR 11.201 Identification and Availability of Specifications, identification of sources for obtaining documents referenced in the specifications must be provided in contract documents.

PART 1 GENERAL

1.1 REFERENCES

Various publications are referenced in other sections of the specifications to establish requirements for the work. These references are identified in each section by document number, date and title. The document number used in the citation is the number assigned by the standards producing organization (e.g., ASTM B564 Standard Specification for Nickel Alloy Forgings). However, when the standards producing organization has not assigned a number to a document, an identifying number has been assigned for reference purposes.

1.2 ORDERING INFORMATION

NOTE: This paragraph is automatically edited when processed using SpecsIntact. The processor removes those organizations not included in other sections of the project specifications when SpecsIntact (Reconcile Addresses item from the Print menu) is used for job processing. However, if publications of organizations in addition to those listed below are used in the project, add such organizations to this paragraph.

The addresses of the standards publishing organizations whose documents are referenced in other sections of these specifications are listed below, and if the source of the publications is different from the address of the sponsoring organization, that information is also provided.
