Unified Master Reference List (UMRL)
UNIFIED MASTER REFERENCE LIST (UMRL)

This document lists publications referenced in the Unified Facilities Guide Specifications (UFGS) of the Corps of Engineers (USACE), the Naval Facilities Engineering Command (NAVFAC), the Air Force Civil Engineer Center (AFEC), and the guide specifications of the National Aeronautics and Space Administration (NASA). The listing is current to the date of this publication.

This version of the UMRL may contain more than one version of a single reference. This is part of the integration of NASA fully into the UFGS system. Future versions will contain only a single version of each reference.

The UMRL lists issuing organizations alphabetically by name and not by acronym. In some cases more than one organization may use the same acronym. If a listed reference does not have a designator assigned by the issuing organization, a designator for the document has been established for use within SpecsIntact.

Where a reference has a joint designation (example: ANSI/BHMA), the UMRL usually lists the reference under the proponent organization (example: The proponent of ANSI/BHMA A156.1 is BHMA; therefore the reference in the UMRL is under BHMA). This procedure simplifies referencing and ordering of joint documents, and specification sections should cite such reference publications using the same designations used in the UMRL. Acronyms of major proponent organizations listed in the UMRL which have joint publications with other standards organization are as follows:

<table>
<thead>
<tr>
<th>Proponent Organization</th>
<th>Joint With</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASME</td>
<td>ANSI</td>
</tr>
<tr>
<td>ASTM</td>
<td>AASHTO</td>
</tr>
<tr>
<td>BHMA</td>
<td>ANSI</td>
</tr>
<tr>
<td>EIA</td>
<td>ANSI</td>
</tr>
<tr>
<td>IEEE</td>
<td>ANSI</td>
</tr>
<tr>
<td>NEMA</td>
<td>ANSI</td>
</tr>
<tr>
<td>NFPA</td>
<td>ANSI</td>
</tr>
</tbody>
</table>

Guide Specification section UFGS-01 42 00 SOURCES FOR REFERENCE PUBLICATIONS includes all organizations listed in the UMRL. The section is automatically edited to fit the project when the project specifications are produced through SpecsIntact.

The UMRL is maintained up-to-date on a continuing basis and is published periodically in electronic format (PDF for use with free Adobe Reader software).
